

BAST BOAT

CORTINA 410

The Cortina 410 is a versatile, open, D category fishing boat that can be equipped with an engine up to 25 H.P. The model can accommodate 4 people.

This is a small boat perfect for both fishing and recreational cruising, very popular at water equipment rentals. Due to its dimensions and weight, it is easy to transport and launch.

SPECIFICATION

Length:	4,10 m
Width:	1,65 m
Draft:	0,30 m
Weight:	230 kg
Category:	D
No. of people:	4
Max. power:	25 HP

- Hpl floors – teak imitation

CORTINA 480 Cabin

SPECIFICATION

Length:	4,80 m
Width:	2,12 m
Draft:	0,35 m
Weight:	420 kg
Category:	C
No. of people:	4
Max. power:	60 HP
Height in cabin:	1,25 m
Berths:	2

This is a tested design with high stability which is very valued by anglers. It has a pilot room, a passenger seat and a bench for two persons on the right side. The Cortina 480 Cabin is equipped with functional lockers in the cabin and a spacious cockpit. Because of its excellent manoeuvrability, simple operation and easy cleaning, the boat is perfect for people valuing their time on the water.

EQUIPMENT

Deck:

- Bow pulpit
- Two side grabrails
- Bow eye
- Threshold trim
- Three cleats
- Cabin door (plexiglass)
- Windshield
- Laminate bench
- Air grate
- Eight hatch hinges
- Cabin roof lock

Interior:

- Interior insert
- Leatherette mattresses
- Cabin interior finished in a light topcoat

Boat designed both for anglers and people valuing active rest by water. The motorboat is an adaptation of the Cabin version. Besides a 1.25 m high cabin, it has an extended windshield with a small roof over the pilothouse, ensuring comfortable sailing even in bad weather.

Similar to the Cortina 480 Cabin, the cockpit is characterized by a laminate finish which is easy to keep clean. A bunk for two persons was mounted on the right side. Both 480s are characterized by high sides, which make them particularly safe when sailing with children.

EQUIPMENT

Deck:

- Bow pulpit
- Two side grabrails
- Two roof grabrails
- Two vertical grabrails
- Threshold trim
- Three cleats
- Cabin door (plexiglass)
- Windshield
- Laminate bench
- Air grate
- Eight hatch hinges
- Pilot foot support
- Cabin roof lock

Interior:

- Interior insert
- Leatherette mattresses
- Cabin interior finished in a light topcoat

SPECIFICATION

Length:	4,80 m
Width:	2,12 m
Draft:	0,35 m
Weight:	440 kg
Category:	C
No. of people:	4
Max. power:	60 HP
Height in cabin:	1,25 m
Berths:	2

- Stern outlets (set)
- Companionway threshold trim
- Anchor locker outlet shield

Interior:

- Interior insert
- Two side shelves
- Cabin interior lined with material
- Mattresses
- Fuel tank
- Power switch

Designed for sailing on lakes and coastal sea waters. Cortina 555 has a refined hull shape, due to which it is driven lightly and surely. With four people on board, after acceleration, the boat quickly starts planing even at 3100 rpm. There are three 1.95 m long berths under the deck. By day, the middle part of the berths can be folded, which creates a sofa and a surprisingly amount of room inside the boat. A chemical toilet can be installed under one of the berths.

SPECIFICATION

Length:	5,55 m
Width:	2,23 m
Draft:	0,30 m
Weight:	750 kg
Category:	C
No. of people:	5
Max. power:	135 HP
Height in cabin:	1,25 m
Berths:	2 +1

CORTINA 555

CORTINA 620 Sport

. The new Cortina 620 – This is practicality and comfort enclosed in a relatively low and wide American-style hull. A roomy cabin for two adults with a child, a floor integrated with the hull and a carefully-finished cockpit with a wide aft sofa ensure maximum comfort and safety while sailing on enclosed waters and in a coastal sea zone. You enter the boat along the antislip-covered bow, then through the opening windshield, down a step into the cockpit – the place for fun and rest.

A low bow rail facilitates staying on board when the wave is high, without spoiling the boat’s visual concept. Upholstered two-coloured chairs and a soft sofa with many handgrips make the passengers never want to return to port. In the soundproofed cockpit, waves cannot be heard and conversation is not disturbed. The extensive standard equipment package facilitates life on board without many additional costs.

The Cortina 620 is not afraid of high speeds or rough water – it does not yaw, rock from side-to-side or fall from the waves. The hull, made of highest quality gel coat, smoothly cuts through water and holds the chosen course. The possibility of installing even a 200 h.p. engine tempts one with the promise of superb performance and a unique experience. In this setting, the boat smoothly starts planing at 22 km/h and, to the passengers’ delight, reaches the impressive maximum speed of 90 km/h. The Cortina 620 is driven lightly and surely, the boat obeys the pilot and reacts swiftly to commands.
